## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election without traverse of species A1, B1 and C1 in the reply filed on 1/17/2007 is acknowledged. Claims 4 and 5 are not readable on the elected species. Claim 4 and 5 recite limitation "container capsules" which is not part of the elected species, figures 1&3, 4, 11&12 together does not show a container capsule. Therefore claims 1-3, 6-15, 17-23, 25-37 and 39-43 are under consideration.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-3,6-15,17-23,25-37 and 39-43 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. It is not clear what is a thruster pig, what is the structure of the thruster pigs. Applicant should submit a statement of the exact meaning of the word "thruster pigs" and if necessary provide figures to show the structure of the thruster pigs. Applicant should also make clear the structural relationship of the flexible material containing coil assembly with respect to the thruster pigs.
